## A Demonstration of Practical Economy that Concerns Every Housewife in America

Two pounds of Mazola fried 208 Doughnuts-2 pounds of Lard fried only 138

MRS. A. Louise Andreathe Panama-Pacific Exposition as lecturer on food and culinary topics -in a comparative test recently fried 208 doughnuts in 2 lbs. of Mazola, while only 138 could be fried in the same amount of lard.

At the same time this expert fried 241/2 lbs. of potatoes in 2 lbs. of Mazola, as against 7 lbs. 14 oz. fried in 2 lbs. of lard.

Also, she fried 2534 lbs. of fish steak, cut to a uniform thickness of one inch, in two lbs. of Mazola. Two lbs. of lard fried only 161/2 lbs.

Equal to Butter at Half the Price-Better than Lard

This means that Mazola is from twice to more than three times more economical to use than lard, on the basis of actual accomplish-

In each test, 4lbs. each of Mazola and lard were fried down to 2 lbs.

This confirms the experience of the seven million housewives who already use Mazola, the Great American Cooking Oil.

Mazola is a 100% pure vegetable fat. There is no loss from evaporation, nor loss of bulk from heating. It remains sweet and clean, and can be used over and over againmerely strain it.

#### Quality and Economya Problem Solved

The wonderful economy and high quality of Mazola teach a lesson that no thrifty housewife can ignore. Not only will the cost of cooking the daily meals be cheaper, but the food more delicious and digestible.

Mazola is sold at all good grocers in pint, quart, half-gallon and full gallon cans.

Once you try Mazola for Salads you will prefer it to the finest, imported olive oils. The price of Mazola is about half that of office oll. No customs duty-no ocean freight charges on Mazola.

Passing of the Cane.

Has the war robbed the walking stick of its popularity, or is the automobile responsible for its demise? Certain it is that the cane is passing temporarily at least. Statistics compiled in the wood using industries prove it. In 1912 there were several cane and whip and umborelia handle manufactories in New York state. This year's survey shows not a single manufacturer, of walking sticks, or white and but one umbralla handle factory. This is spite of the fact that until very recently New York and Massachusetts supplied 40 per cent of the fotal output of these articles. Most of the remainder came from Pennsylvania.
